# VMS OUTDOOR

Variable Message Sign LED DISPLAY

## Variable Message Sign Outdoor

1 color/ 3 colors (Red, Green, Yellow) are extremely efficient tools served for presenting information to the crowd

- With easy-to-use features, a message can be created by user with various display formats for example left-to-right moving, blinking, falling rain, and temperature display. The inside memory allows the virtualization of the exact date and time.

- Variable message sign has 50 animation Gif images in its memory which can be introduced in the promotion and information messaging. Besides a practical graphic, it also allows creating new images and animations.

- They are bright enough to be read under the direct sunlight. They are able to withstand either low or high temperature and also the dusted environment. Based on modular construction, a variety of sizes are allowed.

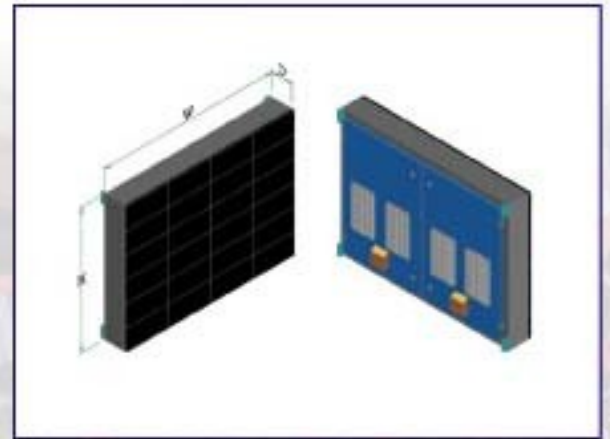

Producer Seller Installer & Service

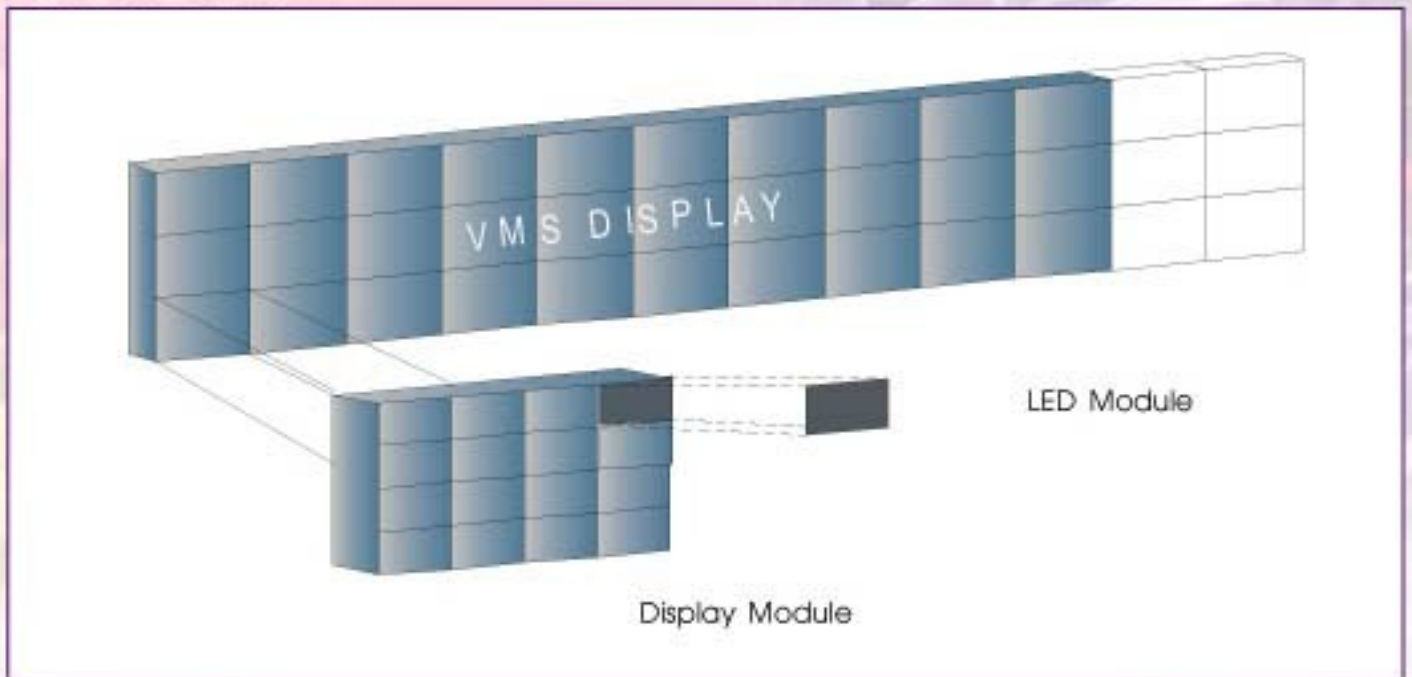

ISO 9001 : 2000 certification

## Display Module

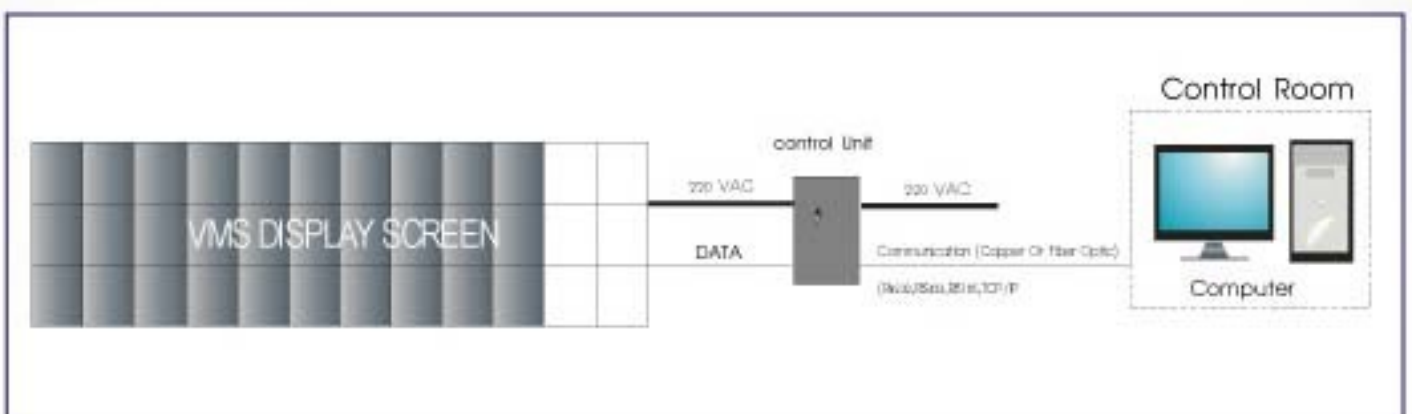

Pitch	Dimension W x H ( mm.)	Resolution ( Pixels)
P16	1024 x 512 x 150	64 x 32
P16	1024 x 1024 x 150	64 x 64
P32	1024 x 512 x 150	32 x 16
P32	1024 x 1024 x 150	32 x 32
